OFFER OF EARLY HELP

The Early Help Offer is an approach not a service.

Providing early help is more effective in promoting the welfare of children rather than reacting later on. Early help means providing support as soon as a problem emerges.

It respects every family's right to access information to help manage their own lives successfully, whilst guiding them to seek support from appropriate sources.

The 'Offer' is for all children, as issues may arise at any point in a child or young person's life. It includes both universal and targeted /specialist services, to reduce or prevent concerns from growing or becoming any more serious.

- Help is there when parents, children and young people need it
- Together we will find a way forward that is right for everyone – there is a choice of help and it will be easy to access
- Families are at the centre of everything we do
- There are a number of support agencies that parents/carers can contact independently. Staff can signpost to relevant support.
- Gloucestershire Local Authority have an Offer of Early help with outlines some of the support
